- Managed Azure Virtual Machines, Azure App Services, and Azure SQL Database instances, ensuring proper configuration and upkeep.
- Worked alongside colleagues to enhance application scalability and performance within the Azure environment.

---

## ACADEMIC PROJECT

---

### ○ ATTENDANCE MANAGEMENT SYSTEM

- The Attendance Management System (AMS) is designed to streamline the attendance tracking process by replacing traditional paper-based methods with a digital solution. The system will allow administrators, teachers, and managers to efficiently monitor and manage attendance records, reducing errors and administrative burden while providing real-time data access and reporting capabilities.

### ○ ONLINE QUIZ SYSTEM:

- The Online Quiz System aims to streamline the quiz creation, distribution, and evaluation process. It offers a user-friendly interface for educators and students, supports various question types, automatic grading, and detailed analytics to monitor performance. The system is designed to enhance the learning and assessment experience by providing a robust digital solution for quizzes.

---
